Issue 08-1: Weeds in Ashley Park Mulch & Fence Areas

The weeds around Ashley Park seem to be getting higher and more out of control. It has been Months since some areas have been touched. Attached are photos of a section of the fence and of the tree mulch area near the Ashley Condos. Also, the green area bushes were trimmed, but weeds still there. I know that excess rain doesn't help, but groundskeepers do not seem to be here as often as before.

Servello should consider adjusting their staffing availability in Harmony on Fridays. Under normal conditions, that would be a great day to catch up with everything.

Issue 08-2: Weeds in Cat Brier / Schoolhouse Roundabout

As seen here, there are lots of weeds in the round about on Cat Brier and Schoolhouse. It looks nothing like the other roundabouts. It is so un-kept and it is very noticeable!

Inside this bush on Primrose Willow Pocket Park is an irrigation clock. The District's request to clear this area has been pending for 4 weeks.
