(David Farnsworth)

## Item #2

### Sign Deterioration

The large Community Directory signs - originally installed and maintained by the Developer - are beginning to deteriorate significantly (see sample photos below).

The questions are:

- Who now owns (is responsible for maintaining) these signs?
- If it is not the HCDD, what are the owner's plans for them?
- If it is the HCDD, what are District plans for them?
- They need some TLC; if not now, when?
