45	DOT [192 - C.]	3.6			L1					
46	DOT [192 - W.]	2.0			L2					
47	Maintenance	0.4			L1					

TOTAL ACRES	102.3	Total size (in acres) of all ponds combined
AVG. TREATED ACRES	20.5	Average treated pond area is roughly 20%

Additional Notes: This month we have had very little rain but have not had very many problems with algae growing. I have only treated the few ponds that are routinely treated to maintain there overall health. Treatments have shown good results; they have kept the ponds looking clean on the surface and very natural looking in overall appearance. I routinely pick up trash floating in or next to all ponds and surrounding areas.
