Additonal Notes: Ponds are doing well; mostly treating the normal ponds, with the exception of a few that ha												
rapid growth. Been removing debris in & around all ponds, and have driven around ponds what needs treatment, and what the ponds that have been treated look like. Had a few rea which raised the water back up about two inches. Once we are fully in the dryer months, tr underwater growth will be more effective; so work on those ponds has been held off for and
