These features, functions, and options (both in Windows and in UserWay) are directed toward assisting individuals who have vision problems; ranging from totally blind to all forms of visual distortions, aberrations, and deficiencies.

Upon visiting the Harmony website, the immediately obvious availability of an assistive aid (whether it be UserWay or another) serves to demonstrate Harmony's commitment to the accommodation of all users, regardless of ability.

The only caveat to its presence is that it should not be a distraction or an annoyance to the majority of users with normal vision. Toward that end, the menu icon was placed in the upper-right corner; but it does need to be reduced in size.

Welcome To Our Website!

We understand that many new residents of Harmony are not familiar with a Community Development District ("CDD" or "District"), which is especially true for those who have moved here from another State or from outside the U.S. We urge you to use the resources available through this website to learn what a CDD is and what it does; and to find the information you need to know as a resident.

To learn about current activities within the District, check out the "Bulletin Board" page. If you are looking for information about meetings of the Board of Supervisors, peruse the District "Meetings", "Agendas", and "Minutes" pages.

If you are a first-time visitor, we suggest you begin your tour of the website by reading "About Harmony"; followed by "What Is A CDD"; the "District Board" (a who, what, & why introduction); and "District FAQ", for answers to common questions.

For further details, use the dropdown **Menu Bar** to select a topical page of interest to you; or, scroll down to "Most Requested Items" and select from the *quick-pick* listing
