Dear Mr. Berube:

This letter is to acknowledge the South Florida Water Management District's (District) receipt of the Third Annual Monitoring Report submitted February 3, 2020, for the wetland conservation areas associated with Environmental Resource Permit (ERP) 49-01058-P. A site inspection was conducted on February 21, 2020 with Bruce Williams of Austin Environmental Consultants, which indicated significant progress has been made on the treatment of the climbing fern (*Lygodium spp*) infestations identified in the Notice of Noncompliance sent on August 27, 2019.

As additional areas of climbing fern infestations were located during this inspection, the District requests commencement of treatment in these areas in addition to continued treatment within the previously identified areas as needed. A follow-up inspection will be scheduled in July 2020 to reassess the compliance status of the ERP. Additionally, the Fourth Annual Monitoring Report is due December 1, 2020

The District appreciates your efforts to comply with the conditions of this permit. If you have any questions or require additional assistance, please contact me at (407) 858-6100 x3806, or via e-mail at svoors@sfwmd.gov, in the Orlando Service Center.

Sincerely,

A handwritten signature in black ink that reads "Sandra Voors".
